

## Role: NSW State Election SMS Campaigners

### About Animal Justice Party

The Animal Justice Party (AJP) is a political party that was formed in response to the growing number of voters who feel strongly that much more needs to be done through the Australian parliamentary system to assist the wellbeing of animals. With thousands of members across Australia and an elected MP in the NSW parliament, the AJP is part of a rapidly growing international movement. Our vision is a planet on which animals are treated with respect, dignity, compassion and kindness, where they are able to flourish in their respective environments, and where their unique needs and capabilities are recognised and their interests protected. To achieve this we believe there is a need for animal representation at all levels of politics and we have already shaped the creation of more animal friendly policies at both a state and federal level.
